

User Acceptance Testing (UAT) Template

Date	14 July 2026
Team ID	
Project Name	Book a Doctor
Maximum Marks	

Project Overview:

📄 **Project Name:** Book a Doctor System

📄 **Project Description:** A centralized healthcare platform enabling patients to search for doctors, book real-time appointments, and manage medical history, while allowing doctors to manage schedules and patient records through a dedicated dashboard.

📄 **Project Version:** v1.0.0

📄 **Testing Period:** 10 July 2026 to 15 July 2026

Testing Scope:

📄 **Features and Functionalities to be Tested:**

- User Registration & Login (Patients & Doctors)
- Doctor Search & Filtering (Specialty, Location, Availability)
- Real-Time Appointment Booking, Rescheduling, and Cancellation
- Doctor Dashboard (Schedule Management & Digital Patient Records)
- Automated Notifications (SMS/WhatsApp booking confirmations)

📄 **User Stories/Requirements to be Tested:**

- As a patient, I want to search for specialized doctors near me so I can book an immediate appointment.
- As a patient, I want to receive instant booking reminders to prevent missing my consultation.
- As a doctor, I want to block out unavailable hours on my dashboard to avoid scheduling conflicts.

Testing Environment:

- **URL/Location:**
https://testing.bookadoctorsystem.local
- **Credentials (if required):**
 - **Patient Account:** testpatient@healthcare.com / PatientPass123!
 - **Doctor Account:** testdoctor@healthcare.com / DoctorPass123!

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	Patient registration and profile setup.	1. Navigate to the registration page. 2. Fill in name, email, password, and click "Submit". 3. Log in with the newly created credentials.	Patient account is created successfully , and the user is redirected to the search dashboard.	Account created successfully ; redirected to the main dashboard.	Pass
TC-002	Doctor dashboard calendar block-out.	. Log in as Doctor. 2. Go to calendar settings. 3. Select 2:00 PM to 4:00 PM and click "Block Out" (Off-duty).	The blocked hours successfully disappear from the patient-facing booking interface	Hours marked as busy on the doctor end, but still appeared open to patients	Fail
TC-003	Real-time appointment booking (Positive)	1. Log in as a separate patient. 2. Attempt to book the exact same slot reserved in TC-002 (10:00 AM Cardiology slot).	The system displays "Slot Unavailable" and prevents booking completion.	System greyed out the slot and blocked the booking with an error popup.	Pass
